10 Kg (22 lbs) e

Low-temperature grease solvent, emulsifier and detergent booster

Properties:

- suitable for optimal removal of special soilings already at 40 °C (115 °F)
- allows cost savings in energy and time
- leads to outstanding laundering results, especially for textiles and garments from old people's and nursing homes, the food industry and work wear
- versatile applications as emulsifier, wetting agent and detergent booster in all laundry facilities

Application:

SG-Clean can be added manually or through liquid dosing systems used in laundries.

As wetting agent:

0.2 - 1.5 ml/kg textiles (0.03 - 0.23 fl oz/10 lbs)

As grease solvent and detergent booster (work wear, kitchen laundry):

2 - 5 ml/kg textiles (0.31 - 0.77 fl oz/10lbs)

As emulsifier for laundry with heavy pigment stains:

6 - 15 ml/kg textiles (0.92 - 2.30 fl oz/10 lbs)

Technical Data:

Density 20 °C (68 °F)	1.00 g/ml
pH-value (1%)	7 - 8
COD (DIN ISO 15705) (chemical oxygen demand)	1710 mgO ₂ /ml

Storage:

Store the product in original packaging only and protected against freezing.

The product can be stored for at least 24 months in its original sealed packing.
